

THREE-BUCKET WEALTH MACHINE - BATTLE PLAN

Integration with Sovereign Legacy Loop

EXECUTIVE SUMMARY

Goal: Transform Sovereign Legacy Loop from a trading platform into a **complete wealth management ecosystem** with automated profit distribution across three buckets:

- **Vault Growth (30%):** Long-term cold storage wealth
- **Engine Fuel (55%):** Hot capital for trading/flips
- **Wage/Lifestyle (15%):** Regular cashflow payouts

Key Principle: This is an **ADDITION**, not a replacement. All existing features remain intact and enhanced.

ARCHITECTURE OVERVIEW

SOVEREIGN LEGACY **LOOP** + THREE-BUCKET WEALTH MACHINE

EXISTING FEATURES (PRESERVED)

- Glassmorphic Dashboard
- Vault Tracker (hot/cold)
- Flip Engine & Trades
- RWA Integration
- Heatmap & Analytics
- Personal Agent
- Shadow.AI Layer

NEW: THREE-BUCKET SYSTEM

- VAULT (30%) → BTC, ETH, SOL, XRP, stETH
- ENGINE (55%) → Hot capital **for** flips
- WAGE (15%) → USDC payouts weekly

WHAT GETS BUILT

Backend (6 models + 7 APIs)

- BucketConfig, BucketBalance, ProfitDistribution
- VaultMilestone, WageSchedule, WagePayout
- APIs for config, balance, distribution, milestones, wage

Frontend (5 components)

- Three-bucket dashboard overview
- Vault milestone tracker

- Wage schedule manager
- Distribution history
- Configuration panel

Integration

- Hooks into existing Trade/Flip/RWA APIs
 - Auto-distribute profits on wins
 - Compatible with existing siphon engine
-

DESIGN LANGUAGE

- **Vault:** Purple gradient ( legacy)
 - **Engine:** Amber gradient ( action)
 - **Wage:** Green gradient ( cashflow)
 - Glassmorphic cards, progress bars, smooth animations
-

TIMELINE

- Phase 1: Schema  Done
 - Phase 2-3: Core engine + APIs (2-3 hrs)
 - Phase 4: UI components (2-3 hrs)
 - Phase 5-6: Integration (1 hr)
 - Total: ~6-8 hours
-

READY TO BUILD?

Awaiting your GO signal, Commander.
